

# Ideas into Action

**Date: 10 November 2010**  
**Time: 9am to 5pm**  
**Place: Central London**

**Do you want people to transform ideas into outcomes?**

**Do you want them to be able to think laterally and creatively?**

**Do you need teams and individuals to achieve extraordinary results?**

## Who should attend

This course is for strategists, leaders, line managers, change agents and consultants across all sectors:

- Anyone who has responsibility for achieving significant breakthroughs to new levels of effectiveness
- Anyone who faces challenges that cannot be addressed by conventional thinking alone
- Anyone who wants to access creative potential for themselves and others

## What will you learn

The course is designed to impart key knowledge on a powerful methodology (LVT) and how it can be practically applied in specific contexts relevant to each participant.

- The background and underpinning principles of the methodology
- Understanding and application of the core process

## Benefits and outcomes from attending

- Optimise challenges and opportunities with colleagues, clients and suppliers
- Acquire a proven methodology that creates actions for your business and team requirements easily
- Use a strategic visual thinking tool for 1:1 and inter-group working environments
- Handle complexity with clarity, confidence and conviction

## Introducing LogoVisual Thinking

This course introduces LogoVisual Thinking (LVT) - a practical, hands-on methodology for freeing up thinking and unblocking potential. The LVT process enables individuals, teams and inter-disciplinary groups to rapidly tackle complex problems, developing shared perspectives and innovative solutions.
