Freestander

Freestander

A portable frameless magnetic whiteboard, the ThinkingWall freestander is proving the perfect solution when wall space is in short supply.

It delivers the functionality of a traditional whiteboard with a clean, modern and contemporary look.

- Double sided writing area
- Magnetic dry wipe surface
- Sleek, frameless finish
- Portable & easy to use
- Reduces trip hazards
- Rolls through doors

The double sided writing surface, made from the same high quality material as the wall mounted ThinkingWall, provides a large space ideal for visual thinking and creative planning.

The clean, simple base removes the need for frames or legs and the associated tripping hazards whilst maximising the available writing space.

From the same high quality range of products as ThinkingWall by Logovisual the Freestander benefits from the same system of accessories that extend the functionality beyond a magnetic receptive, dry wipe writing surface.

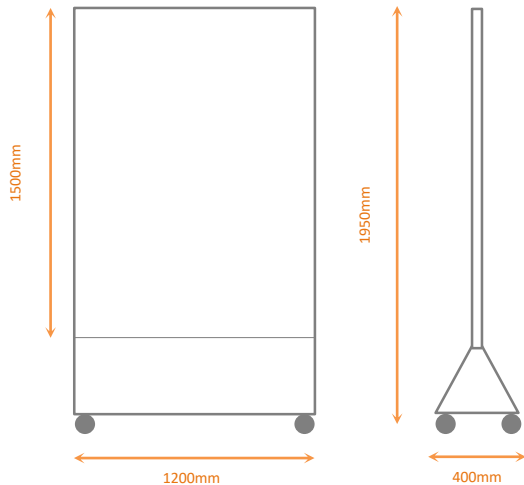

Set on four wheels the ThinkingWall freestander is very stable and easy to move, it has been specifically designed at a height that allows it to pass through doors without needing to be disassembled.

This makes it ideal for moving between offices and meeting rooms helping facilitate collaborative working across a business.
