

Acoustic Freestander

The ThinkingWall Acoustic Freestander is a double sided mobile whiteboard screen combining drywipe and magnetic receptive writing surfaces with sound deadening acoustic panels.

- Drywipe and magnetic receptive
- Double sided writing surface
- Mobile and easy to move
- Excellent acoustic performance
- Contemporary frameless design

The ThinkingWall mobile acoustic freestander is ideal for open plan office spaces.

Its portable nature provides a large mobile writing area when these are often in short supply whilst the acoustic panels give sound deadening properties in busy, high traffic areas.

The unit is set on a sturdy base with 4 high quality twin wheel castors for easy manoeuvrability. The clean, simple base features an exposed plywood edge for a contemporary look and feel.

SPECIFICATION

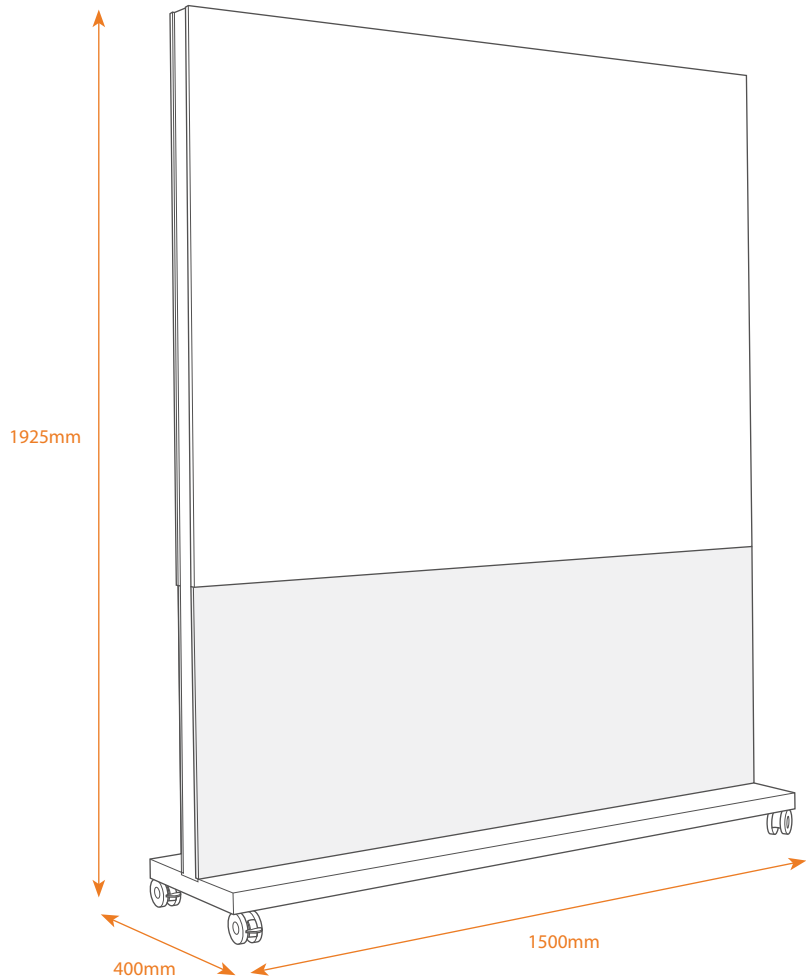

Overall width: 1500mm
Overall height: 1925mm
Base width: 400mm

Also available in 2400mm width

The acoustic panels provide sound deadening and reduction properties ideal for busy offices and open plan spaces.

The frameless whiteboard panels are manufactured from the same high-quality material used in our other ThinkingWall products.

The acoustic panel is made from 100% polyester and contains a minimum of 65% post-consumer recycled material; it is completely safe, non-toxic, non-allergenic and non-irritant.
