

Desk

The ThinkingWall Desk features the same high quality drywipe surface as the other ThinkingWall core products, providing the ability to write notes, plans and ideas directly onto the desk top.

- Drywipe writing surface
- Large stable work area
- Contemporary look and feel
- Central hole for cables
- Sturdy steel legs

The ThinkingWall Desk is available in custom sizes to suit your environment. Choose from a square shape for a roomy shared desk, or a rectangular shape that you can reconfigure to a long table or square as required.

The steel legs are available in a range of sizes giving the flexibility to create a standard seated desk or taller standing height desks for meeting or break out areas.

The mix of exposed end grain plywood, white gloss finish and steel offer a clean and ultra modern feel which will sit well in a variety of offices and working environments.

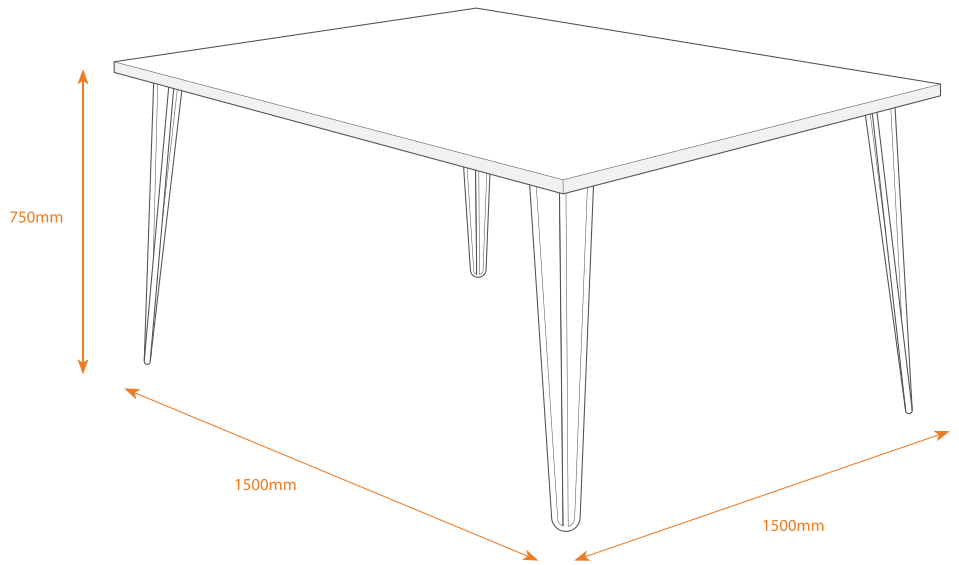

SPECIFICATION

Desk size: 1500mm x 1500mm
Desk height: 750mm

Custom size options available

The ThinkingWall desk is supported by sturdy legs in an industrial style steel construction and set at ideal seated height. It's design encourages collaborative meetings by getting people away from their individual space to engage in conversation.

The typical desk size of 1500mm x 1500mm and 35mm thick the desk top offers a stable and substantial work area.

CUSTOMISATION

Although our products are designed in a range of standard sizes we often customise or adapt to suit a clients space. We have supplied a number of schools with custom sized desk tops and corresponding legs to suit different student age groups.
